Nile Origin *Sourcing*

Premium Egyptian Harvest.

Direct to North American Ports.

Edition · May 2026

A working portfolio for North American produce buyers

partnerships@nileoriginsourcing.com

Why this document *exists.*

Nile Origin Sourcing is the on-the-ground sourcing partner for North American produce importers buying from Egypt. We do not own farms. We do not warehouse fruit. We are pure intermediation: discovery, vetting, validation, and orchestration.

This portfolio documents recent shipments, packhouse work, and farm-gate inspections across the categories we currently service. It is intended as a working reference for procurement teams — something you can put in front of your boss, your buyer, or your own customer to demonstrate the calibre of what we source.

The fruit shown here was photographed at the source. Most images are from the packhouse moments before the carton was sealed. A small number are from the field or orchard at harvest. None of it is stock photography.

OUR COMMERCIAL MODEL

Commission only.

From the seller.

We charge the importer nothing.

Our entire compensation is a commission paid by the Egyptian exporter on shipments you accept.

It is the only model that fully aligns our incentives with yours.

INSIDE THIS PORTFOLIO

01 Introduction · 02 Table Grapes · 03 Citrus · 04 Stone Fruit · 05 Pome Fruit
06 Fresh Dates · 07 Processed · 08 Harvest Calendar · 09 Standards & Process · 10 Contact

02

Table Grapes

Egypt's grape season runs counter-seasonal to North American supply, filling the inventory gap from May through August. Crimson Seedless, Superior, Sagraone, Flame, Red Globe — packed in punnets or bulk for retail or wholesale.

Table Grapes — From the Packhouse

Crimson, Superior, Sugaone — packed for retail and wholesale.

Sugaone Selection
PREMIUM · RETAIL PUNNET

Bi-color Punnet Pack
500G · CLAMSHELL

Crimson Seedless
PUNNET · PAPER INNER

Superior Seedless
BULK · PACKHOUSE

03

Citrus

Navel, Valencia, Mandarin, Grapefruit, Adalia Lemon. Egyptian citrus is one of the world's most reliable winter and spring supply windows — calibrated, waxed, and packed to USDA and CFIA-compliant protocols.

Citrus — Field to Carton

Calibrated and packed for North American market access.

Navel Oranges

When the fruit *is ready.*

Egypt provides reliable counter-seasonal supply through your Q1 and Q2 inventory gaps.

LEGEND

- Peak season
- Available
- Off-season

Certified at the source.

Documented to your dock.

STANDARDS WE WORK TO

GROWER

GLOBALG.A.P. · GRASP · SMETA · Organic (where applicable)

PACKHOUSE

BRCGS · IFS · HACCP · ISO 22000

MARKET ACCESS

USDA APHIS-compliant · CFIA-compliant protocols

TRACEABILITY

Lot-level coding from orchard to carton

DOCUMENTATION

Phytosanitary cert · Cert. of Origin · Commercial invoice · Packing list · BL

OUR THREE-STEP PROCESS

01 Strategic Sourcing

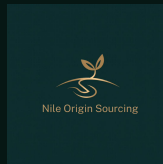

You send a brief — variety, sizing, volume, target arrival window. We map it to the right grower in the right region for that exact harvest week.

02 Quality Validation

We are physically present at the packhouse on loading day. Fruit is checked against your written brief — size, brix, color, defects, cold-chain — and you receive a documented inspection report before the container is sealed.

03 Seamless Delivery

Booking, phytosanitary cert, certificate of origin, BL, customs broker coordination, real-time tracking. You see the container at every stage.

10 — START THE CONVERSATION

Send us your brief.

We come back with the source.
